

Angel Oak Dynamic Financial Strategies Income Term Trust Declares September 2020 Distribution

ATLANTA (September 1, 2020) — Angel Oak Dynamic Financial Strategies Income Term Trust (the “Fund”), a closed-end fund traded on the New York Stock Exchange under the symbol DYFN, today declared a distribution of \$0.1131 per share for the month of September 2020. The record date for the distribution is September 16, 2020, and the payable date is September 30, 2020. The Fund will trade ex-distribution on September 15, 2020.

The Fund seeks to pay a distribution at a rate that reflects net investment income actually earned. A portion of each distribution may be treated as paid from sources other than net investment income, including but not limited to short-term capital gain, long-term capital gain, or return of capital. As required by Section 19(a) of the Investment Company Act of 1940, a notice will be distributed to shareholders in the event that a portion of a monthly distribution is derived from sources other than undistributed net investment income. The final determination of the source and tax characteristics of these distributions will depend upon the Fund’s investment experience during its fiscal year and will be made after the Fund’s year end. The Fund will send to investors a Form 1099-DIV for the calendar year that will define how to report these distributions for federal income tax purposes.
